

CLOUD RESOURCES LLC

CAPABILITIES STATEMENT

COMPANY OVERVIEW

Cloud Resources LLC is a trusted IT contracting firm delivering innovative cloud and on-premises solutions to government agencies and commercial enterprises. The company specializes in cloud migration, infrastructure modernization, cybersecurity, and full-stack software development. With a customer-first approach and deep technical expertise, Cloud Resources helps organizations streamline operations, reduce costs, and accelerate digital transformation. As a fast-moving small business, the firm excels at providing agile and adaptive IT support tailored to evolving client needs.

PAST PERFORMANCE

Cloud Resources:

- **US Army (ITES-3S Contract):** Participated as part of a large business team providing IT services under the Information Technology Enterprise Solutions (ITES) Services contract

Anwara Ahmed:

- **United States Marine Corps:** Delivered IT support and technology solutions
- **District of Columbia Courts:** Supported IT modernization and systems integration
- **Defense Information Systems Agency (DISA):** Assisted with secure IT infrastructure and systems enhancement

CORE COMPETENCIES

- **Application Development & Maintenance:** End-to-end custom software design, development, and support using Agile and DevOps methodologies
- **Cloud Migration & Modernization:** Expertise in AWS migration (lift-and-shift, cloud-native), architecture modernization, and hybrid cloud integration
- **DevSecOps & Automation:** CI/CD pipeline implementation, automated testing, secure code deployment, and infrastructure-as-code
- **API & Software Integration:** Custom API development and seamless integration across cloud and on-premises platforms
- **Data Analytics & AI/ML:** Advanced data analytics, machine learning solutions, and performance optimization tools for modern enterprises
- **Security-Cleared Talent Delivery:** Provision of top-tier IT professionals with Public Trust and Top Secret clearances for secure government environments

DIFFERENTIATORS

- **Agile & Responsive:** Small business agility allows for rapid deployment, fast response times, and real-time adaptation to client needs
- **Security-Cleared Experts:** Access to cleared personnel with advanced degrees and 15+ years of experience in software development and cybersecurity
- **Tailored Software Solutions:** Purpose-built systems designed to fit each client's operational and regulatory environment—not just off-the-shelf tools
- **Modern Architecture Expertise:** Implementation of micro-services, containerized deployments, and modern APIs to improve scalability and maintainability
- **Built-in Quality Assurance:** Internal peer review processes and weekly 1:1 client check-ins ensure high-quality, transparent delivery

MISSION STATEMENT

We build trusted partnerships by delivering tailored software and cloud solutions that enable innovation, operational excellence, and mission success.
